Product Specification - A60E Economy Bulb

Description

The 'A' series, Economy Bulb from Uni-light is designed to replace classic incandescent lights or compact fluorescent lights with either a E27 screw fittings or a B22 bayonet fitting. Packaged in a classic-shaped, pearl envelope using our own energy-efficient driver circuitry, the light can be used in most standard fixtures, offering the user considerable energy saving opportunities. Light levels from each of the 5W, 6W and 8W versions far exceed that produced by our nearest competitors for an equivalent input wattage.

The 'A' series economy bulbs have 240 degree beam angle which means they are well suited to many different domestic and commercial applications. Uni-light has become known for its high performance, high quality, LED bulbs and tubes and integrated fittings. With this new economy bulb we have been able to maintain our quality whilst offering a reliable and highly-competitive product. The savings achievable by users of the 'A' series economy bulb will offer a very short pay-back period. Colour temperature of these bulbs is in the range 2700 – 3000K. In line with all other Uni-light products the 'A' series economy bulb comes with a 5 year warranty and a 50,000 hours life expectancy.

Product Specification - A series economy bulb

Specifications

Model No	ULKDM-A60E-5W	ULKDM-A60E-6W	ULKDM-A60E-8W
